**Shelf-life Extension of the Clarity COVID-19 Antigen Rapid Test Cassettes**

The purpose of this letter is to inform users of the Clarity COVID-19 Antigen Rapid Test Cassettes (CLA-COV19AG-VIS) regarding the extension of the current product’s expiration date.

As per US FDA Emergency Use Authorization (EUA) requirement, Salofa Oy had submitted the real-time stability data to support the extension of the product’s shelf-life. Upon FDA’s review, a shelf-life of **21 months**, when the products are stored at 35.6°F – 86°F (2°C— 30°C), has been granted.

Therefore, all products will have an expiration date that is **9 months beyond the expiration date printed on the product label**. Please refer to the table below for the new expiration dates:

<b>Expiration Date on Label (12 Month Shelf-life)</b>	<b>Extended Expiration Date (21 Month Shelf-life)</b>
August 2022	May 2023
September 2022	June 2023
October 2022	July 2023
November 2022	August 2023
December 2022	September 2023
January 2023	October 2023
February 2023	November 2023
March 2023	December 2023

If you have a test kit with an expiry dating that is not mentioned in the above table, please add 9 months to the Expiration Date mentioned on the box and or test pouch to estimate the Extended Expiration Date.

Letter from the USFDA regarding Shelf-Life Extension is attached for your review and records.
